Sewell, New Jersey 08080

Re: Letter of reference

To whom it may concern,

I am writing this letter to refer South Jersey Waterproofing for their level of expertise and experience in the waterproofing and structural repair work.

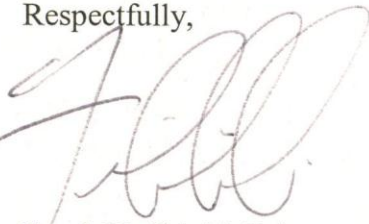

We have worked with them on various projects, and many of our clients have used their services with nothing but rave reviews on the level of workmanship and competence they exhibit.

I would without hesitation refer any client or contact to them for any need they might have. The work is performed to the highest standards, and their knowledge of the industry is unparalleled.

In summary, South Jersey Waterproofing is a well established family business with a vast background in foundation and waterproofing services, and their work and knowledge has been helpful to myself and my firm and will continue to be in the future.

It is our hope that this referral will allow you to see the value that this company will bring to the project that you are considering, and put any concerns you might have to rest.

Respectfully,

Frank N. Criniti, RA

President
